

Tests	Domains Assessed
Auditory Number Sequencing	Verbal Working Memory
Simple Reaction Time	Psychomotor Speed
Choice Reaction Time	Psychomotor Speed and Power of Attention
Competing Programs	Cognitive stability and flexibility
CPT – AX Version	Sustained Attention and Vigilance
CPT – Flanker Version	Sustained Attention, Conflict, and Vigilance
CPT – Identical Pairs Version	Sustained Attention and Working Memory
Digit Symbol Substitution	Processing Speed
Spatial Working Memory	Spatial/Nonverbal Working Memory
Word List Memory (immediate) (Learning Slope)	Verbal Learning, Encoding, Transfer
Word List Memory (delayed)	Recall and Retention
Face Memory	Visual Declarative Learning and Memory
Object Working Memory	Visual Working Memory
Go-no-Go	Power of Attention
Penn's Emotion Acuity Test	Social Cognition/ Emotional Perception
Set Shifting	Reaction Time and Cognitive Flexibility
Strategic Target Detection	Reaction Time, Concept Formation, Cognitive Flexibility
Tapping Speed	Psychomotor Speed
N-Back Test	Working Memory
Compensatory Tracking Task	Alertness and Arousal
Affective Interference Test	Emotional distractibility and affective memory
Emotion Inhibition Test	Emotion Inhibition
Letter Fluency Test	Phonological Fluency and Verbal Processing Speed
Semantic Fluency Test	Semantic Fluency and Verbal Processing Speed
Sustained Attention Test	Sustained Attention
Stroop	Reaction Time, Inhibition
Tower of London	Reasoning and Planning
Visual Analogue Scale for Fatigue	Fatigue—visual analogue (subjective self rating)
Bond and Lader Scale	Mood—visual analogue
Leeds Sleep Evaluation Quest.	Sleep—visual analogue
Token Motor Task	Motor Speed
